Hi Patti -

I heard that Friday's meeting on 404 integration was productive - thanks for organizing it.

I wanted to get clarification on what I think I heard on last Thursday's federal agency call. It was in the context of discussing the State Board's recent letter about the need for a "reduced export" alternative. I think I heard you say that this could be a problem for the federal DEIS as the Screening Criteria had screened out (or would screen out) such an alternative. Did I get that right? You were going to send me the Screening Criteria because somehow I had missed that this document had been completed. Is there also a report documenting the results of applying this criteria? Or was that what you said was done by powerpoint at a BECT meeting?

Thanks Patti! - Karen
